52-week Low:	\$12.45
Market Capitalization:	\$192.2 million
FY 2005 Sales:	\$165.0 million

### About LeCroy Corporation

LeCroy Corporation is a worldwide leader in serial data test solutions, creating advanced instruments that drive product innovation by quickly measuring, analyzing and verifying complex electronic signals. The Company offers high-performance oscilloscopes, serial data analyzers and protocol test solutions used by design engineers in the computer/ semiconductor/ consumer electronics, data storage, automotive/ industrial, and military/ aerospace markets.

LeCroy's 40-year heritage of technical innovation is the foundation for its recognized leadership in WaveShape

Analysis – capturing, viewing and measuring the high-speed signals that drive today's information and communications technologies.

### Growth Strategy

LeCroy Corporation is focused on generating solid growth while also maintaining double-digit operating margins. To accomplish this mission, the Company is striving to:

- Maximize LeCroy's penetration of the oscilloscope market by offering products across the bandwidth spectrum, from low-end tools to mid- and high-end serial data analyzers.
- Grow its share of the protocol test solutions market through the launch of innovative new offerings for current and emerging standards.
- Pursue strategic acquisitions that are complementary, accretive and possess proven growth characteristics.

### Protocol Solutions

LeCroy is a market leader in test solutions for many key serial data protocol standards, such as USB and PCI Express™. These protocols are key to all digital communications. LeCroy also is well positioned as the early leader in new emerging protocol standards, such as Wireless USB. LeCroy's protocol analyzers precisely generate and monitor communications traffic, diagnose problems and ensure compliance with interoperability standards.

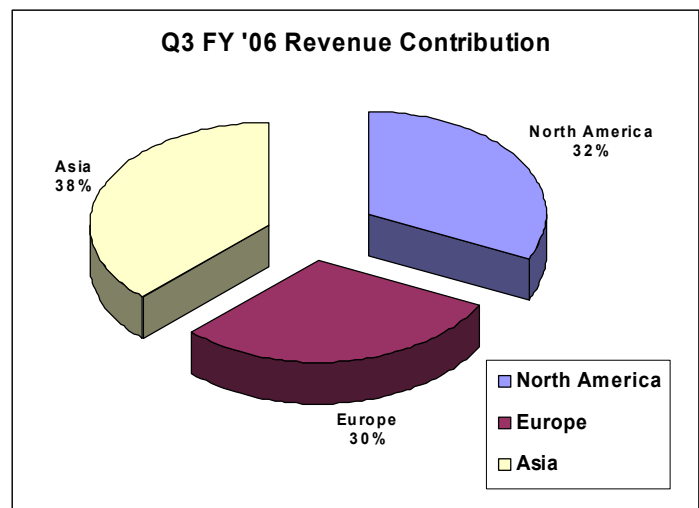

### Investment Highlights

- Well-known and respected Test and Measurement equipment provider with excellent brand awareness
- LeCroy has the #1 position in high-growth market for Serial Data Test Solutions
- Opportunity to gain share at the high-end of the oscilloscope market with LeCroy's new high-performance instruments, including the new 100 GHz sampling scope and 18 GHz serial data analyzer
- Experienced management team with a history of delivering improved operating results
- Strong track record of growth, profitability and cash generation
- Increased presence in the value-oriented oscilloscope market with new low bandwidth products, including its recently launched WaveJet product family. Reaching bandwidths as low as 100 MHz. WaveJet is LeCroy's first ever sub-\$3,000 oscilloscope.

### Total Revenue

### Q3 FY '06 Revenue Contribution

### Safe Harbor

This fact sheet contains forward-looking statements, including those pertaining to the Company's ability to penetrate the oscilloscope market, grow sales for its low-cost offerings, enhance its leadership position in serial data test solutions, roll out new products at the mid and high-end of the market, grow sales for its Protocol Solutions Group, and make strategic acquisitions that are complementary, accretive and possess proven growth characteristics. All such forward-looking statements are only estimates of future results, and there can be no assurance that actual results will not materially differ from expectations. Actual performance and results of operations may differ materially from those projected or suggested in the forward-looking statements due to certain risks and uncertainties, including, without limitation, volume and timing of orders received, changes in the mix of products sold, competitive pricing pressure, the Company's ability to anticipate changes in the market, the availability and timing of funding for the Company's current products and the development of future products. Further information on potential factors that could affect LeCroy Corporation's business is described in the Company's latest reports on file with the Securities and Exchange Commission.
